Kaitlyn is happy little girl often described as a free spirit. She doesn't let much get to her and she loves dancing. She is always singing or dancing and does it to her own beat. She has to work harder when it comes to acro but has great flexibility. She has been dancing since she was 3 years old and she dreams of being old enough to be

able to dance pointe ballet. She has a huge love for animals and says she's going to be a veterinarian ballerina when she grows up.

Achievements: This is her first year in competitive dance and her first year at Paramount Dance Studio. They have been amazing and Kaitlyn has grown so much as a dancer with

them. We love that they not only focus on make them great dancers but they teach the importance of teamwork, kindness, discipline and respect. They do not tolerate any negative or demeaning behavior towards another dancer be it from a dancer or parent.

Bella D'Armas

Ever since I was three years old I have been dancing. I love music and the way it makes me feel. I always imagined I would grow up and be a performer like Jennifer Lopez and Shakira. I got distracted in college and when I started my full-time job I realized I was not happy and they quit and started to pursue dancing. I started taking it seriously about two years ago and I have been training ever since working towards my goal of being on stage and fulfilling my dream to be a performer. I love to share great feelings with people and DNCE makes me feel amazing and I know it makes other people feel great too. Dance is the only way I can express myself and if I can do it professionally and for a living it would be amazing and that is my goal. is the only way I can express myself and if I can do it professionally and for a living it would be amazing and that is my goal. My challenges have been that it is a lot harder than I thought to start at my age, and to train my brain and my body to keep up with choreography. It entails a lot more conditioning and strength than I could have ever imagined. I never thought about how my memory and my brain speed would come into play for dance as well. I never thought that my back muscles will need to be strong and working towards having my body and brain stronger has been a challenge. In one year and a half I went from a beginner he was very shy to an intermediate level dancer who is no longer as afraid to perform and this has been amazing. longer as afraid to perform and this has been amazing. I have performed on stage at the annual showcase for the dance studio where I train and it was a great moment

Achievements: Showstopper dance studio has trained me to be a better person, a more free version of myself, a more confident person. They have made me believe in myself like I never have before. They are an amazing team who really care about dancers in the industry and they unlock your potential. They have one location in Miami Florida at the moment and they have grown a lot in the year that I have been here as well as the owner does choreography for various Award shows like the Premios Lo Nuestro as well as choreography for various artists.
